

Welcome Fellow Dog Lover!

We are happy you've joined our Camp Dogwood community – *the place for like-minded 'dog-people' who share in our commitment to the dog, the bond, and the community.* Camp Dogwood, created in 2001, is an overnight camp experience for people and their dogs. We still hold the record for the longest-seated Dog Camp Directors of all dog camps around the world, which means we have pretty much seen it all when it comes to people traveling with their dogs.

We have been there ourselves: on a road-trip and realizing we forgot our dog's food... dealing with a leash break without an extra on hand... embracing the joy of an unexpected roll-in-poop – or worse, the dreaded skunk encounter – with no towel or hose in sight... the scenarios are endless! We want you to benefit from what we have seen in our own travels, as well as what we've learned over the years running Camp Dogwood.

We are delighted to share our “Dog Traveler Tips” package with you! This includes:

- Our “*Travel with Your Dog...But Before You Go*” list
- Template pages for you to print and create your own *Pet-Friendly Travel Journal*
- A *Dog-Friendly Travel Options* list
- Packing list & suggestions for a *Pet Travel First-Aid, Safety & Comfort Kit*

At Camp Dogwood, we always say: “There is no such thing as bad weather, just the wrong clothing.” This sentiment applies to being prepared for your pet-friendly travels in order to insure a *relaxing, fun, and safe* experience for you and your dog. In addition to safety, we believe that when we travel with our dogs we are each ambassadors for all dog travelers. We want places across the country to welcome dogs into campgrounds, hotels, resorts, cabins, inns, and cottages. So it is important for us all to “represent” with responsibility, safety, and preparedness in mind. ***But most importantly, we want your dog to be safe, comfortable, and happy when he or she travels with you.***

Remember, nothing celebrates the bond you share with your dog more or creates better memories than “hitting the road” with your dog. So get out your dog's bucket list, and start planning your adventures!

Happy Trails,
Alysa & Dave
